- Colours: Standard: Black, Brown
Non Standard: Two-tone Black/Brown
- Order Lead Time: Standard build/colour: approx 4 - 6 Weeks
Customized build/colour: 8+ weeks depending on manufacturer work load
- General Comments: A beautifully crafted Dressage Saddle which can fit horses with a high wither and narrow shoulders as well as round horses with very little wither.

Manufactured from premium quality German, ecologically tanned, leather with stainless steel fittings and logo plates.

Constructed around the Trekker Registered *Leather Flex*® structure it flexes in all directions and fits both straight and curved backs.

The underside has very thick, flexible panels, filled with "Memory Foam", which returns to its original shape so the panels adapt when saddling each time to the horses back accordingly. With this underside and construction, the saddle does not touch the horse's spine and keeps the wither free of pressure.

The saddle has a V-Girthing. The pressure distribution/girthing runs inside over the *Leather-Flex*® tree helping to distribute the riding weight optimally. Stirrup leathers are fixed by stirrup bars, not rings making this saddle much safer.

Because of this special style and cut the Inspiration has a very deep comfortable seat which puts the rider in a classical long, stretched position.

English rigging is used with short dressage length girth.

The Inspiration is used by for Warmbloods, Arabs, Ponies, Coldbloods, PRE's, Lusitanos, Lipizzans, Pasos and Friesians.

Maintenance/Care: Use a good quality leather conditioner to keep the leather in top condition.
